Nice Classification of Goods and Services for Trade Marks

New Zealand follows the 9th edition of the Nice Classification of Goods and Services for Trade Marks, which is maintained by the World Intellectual Property Organization (WIPO). Trade marks registered in New Zealand since 1 January 2007 are recorded on the IPONZ database as being applied for or registered under **Classification System 9**, referring to the current edition of Nice Classification.

Prior to 1 January 2007 IPONZ defined the *version* of classification system, that a trade mark is registered in respect to, as either **schedule 3, 4, 6 or 8** – a reference to the corresponding Schedule of the New Zealand Trade Marks Regulations 1954.

Schedule 8 covers trade marks applied for between 20 August 2002 and 31 December 2006.

Schedule 6 covers trade marks applied for between 7 January 2002 and 19 August 2003. Schedule 6 was in effect the 8th edition of the Nice Classification and it corresponds directly to IPONZ's **Classification System 8**. Please note that all application filed under Schedule 6 have been re-indexed to appear as Classification System 8.

Schedule 4 covers trade marks applied for between 11 December 1941 and 6 January 2002 (unless the proprietor of the mark has requested conversion to schedule 6).

Schedule 3 covers trade mark applied for prior to 11 December 1941 (unless the proprietor of the mark has requested conversion to schedule 4).

PCT Fees

The Patents Amendment Act 1992 (apart from sections 3, 8, and 11, which came into force on 19 August 1992) and the Patents (Patent Cooperation Treaty) Regulations 1992 came into force on 1 July 1998.

The Patent Cooperation Schedule of Fees has been amended with effect from 1 January 2002. The revised schedule of fees is as follows.

The International Phase:

Preparation of a copy of the certified international application and subsequent amendments at the applicant's request:

NZD \$30.00 + \$3.75 (GST) = \$33.75

The cheque for the payment for any fees under the heading **New Zealand component** should be made out to the **Ministry of Economic Development**.

Only one search authority is to be selected. The search fees, collected by IPONZ on behalf of the requisite International Searching Authority, are as follows:

That is, when paying fees which cover both types, TWO SEPARATE CHEQUES MUST BE PROVIDED.
3. Enclose all International Patent Cooperation Treaty applications and subsequent mail in an envelope clearly marked PCT.
4. Please remember that the sheets provided as International Patent Cooperation Treaty applications must be in pristine condition, therefore have no creases, cracks, folds or staple holes.

A version of Adobe Acrobat with this facility is available on this CD in directory Acrobat. If you wish to take advantage of this facility and have a Windows or NT PC you should install the version of Acrobat Reader on this CD.

After installing this version of Acrobat you should start Acrobat up and ensure that :

The index on the CD is selected using File, Search, Select Indexes, Add (it is located as INDEX.PDX in the folder INDEX). If you have relocated the files you should ensure that the index folder is in the same directory as the Journal pdf files.

That File, Preferences, Search has the "Search fields" box checked. This will allow you to specify any particular Journal to search using the journal number in the Keywords field.

Given this you should be able to search the journals. The help file for the Search module is included, the main points being that wild cards are ? (single character substitution) and * (multiple - including nil - character substitution).

IPONZ Online Journal

The IPONZ Journal can be downloaded free of charge from the IPONZ website. As a result of discussions with a number of clients IPONZ has decided to pilot an Online Journal via the IPONZ website. It is anticipated that the Online Journal will be available to IPONZ Clients from the main menu of the IPONZ homepage www.iponz.govt.nz.

While IPONZ will continue to produce the journal in its current PDF format on CD-Rom, it is envisaged that the Online Journal will eventually replace the PDF format Journal.
