\*In the case of some protected varieties the breeder may use a "commercial name" as well as the variety denomination. In response to requests for such information from the nursery industry, commercial names, if known, have been included in this list of valid plant variety rights.

It is stressed that reference in this Journal to a commercial name does not imply official recognition of the name or that the breeder concerned has any exclusive rights to it. For each protected variety, it is the variety denomination that is the official designation, over which the breeder enjoys an exclusive right of use.
