

New dates added to Taking Care of Business roadshow

Due to its popularity with small business owners, the Taking Care of Business roadshow will hold five additional events in the following locations: Porirua, Masterton, Rotorua, Christchurch and Blenheim.

To register for these events, please visit the [Ministry of Business, Innovation and Employment website](https://www.business.govt.nz/news/2016-roadshow-of-government-support-for-businesses/) (<https://www.business.govt.nz/news/2016-roadshow-of-government-support-for-businesses/>).

The Taking Care of Business roadshow aims to give business owners an overview of the government support available to them – whether it involves compliance, tax, surveys, or trade and innovation – and hopes to make interaction with government services easier and more efficient.

With more than 1,200 attendees so far this year, business owners have provided positive feedback about the events, particularly the opportunity to speak directly to government agency representatives.
