

Patent Technical Focus Group meeting updates

The Patents Technical Focus Group (TFG) provides a forum for communication between client representatives and IPONZ in relation to the provision of technical patent intellectual property services in New Zealand.

The Patents TFG regularly meets to discuss feedback on proposed practices and upcoming publications. Its presence supplements existing communication between the Ministry of Business, Innovation and Employment, and other parties interested in intellectual property matters.

Meeting notes from the most recent Patents TFG meeting on 28 March 2018 are now available online.
