

TECHNICAL QUESTIONNAIRE – CORDYLINE

To be completed in connection with an application for plant variety rights

1. Species:	Cordyline (Cordyline com. ex Juss) and Dracaena (<i>Dracaena</i> L.)

2. Owner of Variety:

Full name:	
Address:	
Breeder's name and address: (if different from owner)	
3. Proposed denomination:	
Breeder's reference:	

4. Information on the breeding scheme and propagation of the variety:

a) Method of breeding or selection (tick appropriate box and give variety name(s) if relevant) -

Seedling of unknown parentage		
Produced by controlled pollination		
Seed bearing parent		
Pollen parent		
Produced by open pollination of		
Mutation or sport from		
Discovery		
Where:		
When:		

b) Other information

5. Characteristics of the variety: (Mark the state of expression which best corresponds)

very short one only short one to three medium more than three tall very tall c) Leaf blade: width (at broadest point) - d) Leaf blade: number of colours - one narrow one one one narrow two two two e) Leaf blade: main colour (upper side) - (pellow green very short white short white medium defined one f)Petiole: length - very short white medium dark green one urple green very long dark purple purple bronze purple red brown red	a) Plant: height –	b) Plant: number of stems/primary shoots (natural) –
medium more than three tall very tall c) Leaf blade: width (at broadest point) - d) Leaf blade: number of colours - very narrow one narrow two medium two medium three or more broad very broad e) Leaf blade: main colour (upper side) - f)Petiole: length - very short white medium green medium dark green purple green very long dark purple purple tronze purple red	very short	one only
tall very tall c) Leaf blade: width (at broadest point) - d) Leaf blade: number of colours - very narrow one narrow two medium broad very broad e) Leaf blade: main colour (upper side) - f)Petiole: length - yellow green very short short medium dark green ong purple green very long dark purple purple bronze purple red	short	one to three
very tall c) Leaf blade: width (at broadest point) – very narrow one narrow two medium three or more broad very broad e) Leaf blade: main colour (upper side) – f)Petiole: length – yellow green very short white short medium dark green long purple green very long dark purple purple bronze purple red	medium	more than three
c) Leaf blade: width (at broadest point) – d) Leaf blade: number of colours – very narrow one narrow two medium three or more broad very broad e) Leaf blade: main colour (upper side) – f)Petiole: length – very short white short medium green medium dark green long purple green very long dark purple purple bronze purple red	tall	
very narrow one narrow two medium three or more broad three or more very broad three or more	very tall	
 medium three or more broad very broad e) Leaf blade: main colour (upper side) – f)Petiole: length – very short very short white short medium green dark green long purple green very long dark purple purple bronze purple red 		
 broad very broad e) Leaf blade: main colour (upper side) - f)Petiole: length - yellow green very short white short medium green dark green purple green dark purple purple bronze purple red 	narrow	two
e) Leaf blade: main colour (upper side) – f)Petiole: length – yellow green very short white short medium green medium dark green long purple green very long dark purple purple bronze purple red very long	medium	three or more
e) Leaf blade: main colour (upper side) – f)Petiole: length – very short white short medium green medium dark green long purple green very long dark purple purple bronze purple red	broad	
yellow green very short white short medium green medium dark green long purple green very long dark purple purple bronze purple red very long	very broad	
yellow green very short white short medium green medium dark green long purple green very long dark purple purple bronze purple red very long		
yellow green very short white short medium green medium dark green long purple green very long dark purple purple bronze purple red very long		
white short medium green medium dark green long purple green very long dark purple purple bronze purple red very long	e) Leaf blade: main colour (upper side) –	f)Petiole: length –
medium green medium dark green long purple green very long dark purple purple bronze purple bronze purple red	yellow green	very short
dark green long purple green very long dark purple purple bronze purple red upple red	white	short
purple green dark purple purple bronze purple red	medium green	medium
dark purple purple bronze purple red	dark green	long
purple bronze purple red	purple green	very long
purple red	dark purple	
brown red		
	brown red	

g) Other characteristics of the variety -

6. Similar varieties and differences from these varieties:

(Please use the following table and box for comments to provide information on how your candidate variety differs from the variety(ies) which, to the best of your knowledge, is (or are) most similar. This information may help the PVR Office to conduct its examination of distinctness in a more efficient way.)

Denomination(s) of variety(ies) similar to yours.	Characteristic(s) (e.g. plant height) in which the similar variety differs from yours.	Describe the expression of the characteristic(s) for the similar variety (e.g. short).	Describe the expression of the characteristic(s) for your variety (e.g. tall).
Comments:			1

7. Additional information which may help in the examination of the variety:

a) Resistance to pests and diseases -

b) Other information -

8. Sites in New Zealand where plants of the variety are presently growing:

a) On applicant's property at:

	No. of plants: (approx.)	
	Growth stage:	
Other property in New Zealand:		
	No. of plants: (approx.)	
	Growth stage:	

b) List other varieties on applicant's (or other) property under similar conditions, which would be available for comparison and reference purposes:

c) Further material is being bulked up by

(method of propagation)

(place)

9. Special requirements or suitability for soil type or climate -

Note: Colour image or photographs must be supplied at application. The following are the requirements that apply.

Colour image or photographs, where applicable, must accurately represent a fruit, ornamental or tree variety. In the case of every application for fruit, ornamental, tree or vegetable variety you should supply a photograph or image as specified. Supply a colour image or photograph representative of the variety and displaying as well as possible its chief distinguishing feature(s). The image or photographs may be of the whole plant of the new variety and/or of plant parts such as the fruit or the flowers, whichever is most appropriate. Do not supply an image or photograph of the original bred or discovered plant, or in the case of a new mutation or sport the plant part from which the variety originated. Instead you should supply the image or photograph based upon plants or trees propagated from the original plant or plant part.

10. Authorisation for release:

- a) Does the variety require prior authorisation for release under legislation concerning the protection of the environment, human and animal health?
 - Yes No
- b) Has such authorisation been obtained?
 - Yes No

If the answer to b) is yes, please attach a copy of such authorisation.
