

## **Examiner Comments 2010**

### **Paper A2**

Candidates performed better in this paper than they did in paper A1.

Paper A2 was generally well answered with most candidates gaining good marks in Questions 2, 3, 5, 6 & 8.

Question 1 was not well answered by nearly all candidates. Candidates did not demonstrate a good understanding of the requirements and process for restoration, and it was surprising that many candidates calculated incorrect renewal and expiry dates.

Questions 4, 7, 9 & 10 required a more holistic approach from candidates, and a number of candidates had difficulty with questions 4 and 9. The candidates who answered these questions well were those who gained the better marks.
